

EHS Math Students

It is **strongly recommended** that you have the following items for your 2022/2023 math class:

All Math Classes -
a **graphing** calculator
(TI-84 Plus CE)

You will use this calculator for any college math classes you take as well.

Math I and Math II –
a compass and protractor

***You will also need pencils, a highlighter, a 2” to 3” binder for your math class only (Yes, you really need this large of a binder just for math class!), and at least 3 divider tabs.**

There are pencil pouches available for sale in the EHS office for \$20. They contain a compass, protractor, pencils, highlighters and post-it notes.

Students who are not able to purchase their own calculator will be allowed to check out a graphing calculator from EHS to use for the school year. Please contact the EHS Librarian for a contract and calculator.
